

Bolton Safeguarding Children Partnership—Multi-agency Training

Supporting Grieving Children

Level — Intermediate

Information

A presentation by Child Bereavement UK regarding children who are bereaved, in grief or dealing with an expected death of someone close. The presentation will consider and discuss issues for children and young people having to undergo bereavement and how they may cope with it. It will examine how professionals should respond to support children who are suffering with grief or an expected bereavement of an adult or other family member.

Objectives

- Understand the needs of bereaved children and young people
- Models of grieving
- How to make it talked about and not hidden with children
- Techniques that can be adapted for different child developmental stages and the wider impact on the family as a whole
- Self-care of professionals
